LEIHAOPAM LEISAN

Web Design & Development | Prospective PhD Applicant, Fall 2027

appamleisan@gmail.com • +1 208-710-9432

linkedin.com/in/leisan23 • github.com/Appam23

ACADEMIC PROFILE

Web Design and Development undergraduate at Brigham Young University–Idaho with experience building responsive web applications and maintaining production websites. Interested in doctoral research in web accessibility, human–computer interaction, and inclusive user experience design, especially improving digital access for people with disabilities.

EDUCATION

Brigham Young University–Idaho | Bachelor of Science, Web Design and Development

Expected July 2027 • GPA: 3.338/4.0

RESEARCH INTERESTS

Web accessibility and WCAG • Human–computer interaction • Inclusive UX and user-centered design • Assistive technology • Digital inclusion

PROFESSIONAL EXPERIENCE

Sandhill Media Group | Web Design & Development Intern | September 2026–Present

- Edit and maintain website content, page layouts, and design elements using WordPress and content management tools.
- Update the ICON Gaming website, including pages, content, and presentation.
- Manage event listings and related website content for Radio Hex; assist with updates for Score Medicare.
- Troubleshoot website content and presentation while preserving consistency with existing site structures.

SELECTED TECHNICAL PROJECTS

Full-Stack Used Car Dealership Web Application

GitHub: github.com/Appam23/cse340_final_project_leisan

- Developed a dealership-oriented web application with public pages, car details, account registration and login, and inquiry forms.
- Project incorporates PostgreSQL, reusable EJS layouts, session-based authentication, flash messaging, and custom error pages.

Personal Portfolio Website

GitHub: github.com/Appam23/astro-my_portfolio

- Designed and developed a responsive personal portfolio using Astro to present technical projects and professional experience.
- Maintain and refine site content, layout, and presentation as new projects are completed.
